Natural Skin Care for Mother and Baby We all instinctively know to protect our children from toxins, chemicals and non-natural products. That's why parents can be confident in Olive Baby Body Care; based on award winning extra virgin olive oil, grown and pressed on the Simunovich Olive Estate, in the sunny Bombay Hills of Franklin District.

Olive Baby Body Care products are entirely free of parabens, propylene glycol, sodium laureth sulphate and other potentially harmful compounds; instead using their own pure spring water and nature's own natural and organic ingredients to create formulations that are both gentle and nourishing to your infant's delicate skin.

Olive oil has been the body care product of choice by people of the Mediterranean for hundreds of years. Rich in vitamins and antioxidants, extra virgin olive oil is a highly effective component in neutralizing free radicals known to damage healthy skin – with a PH level matching that of your own body, so is non acidic and suitable for all skin types.

Now you too can share this healthy legacy with your next generation with Olive Baby Body Care. For more information see: www.simuolive.co.nz

We have five Olive Baby Body Care Gift Boxes from to give away, each valued at \$52.60. Write to 'Simunovich Giveaway', PO Box 37708, Parnell, Auckland.
